

# TRANSFORM YOUR ESPORTS CAFÉ

Create profits –  
even on empty seats

## EMBRACE GAMING

As a haven for gaming fans and online enthusiasts, we understand how important it is for you to keep an internet or esports café doors open 24/7, but we also understand that this leads to 4am slumps and post-lunchtime lulls.

To combat this, we've created blockchain software that allows you to continue making a profit on any empty seats, no matter what the time!

## CUDO GAMER FEATURES

- 1 Comes alive when your computers are inactive to carry out computing work, giving you real, monetary return for any idle or underutilised computers
- 2 Allows you to maximise your investment, even as your computers depreciate in value
- 3 Is fully automated and can be easily deployed across a network of gaming computers, no matter how far your cafés may be spread out

Just look at the returns that you could be making!

### Nvidia

Indicative returns  
for the top gaming  
GPUs

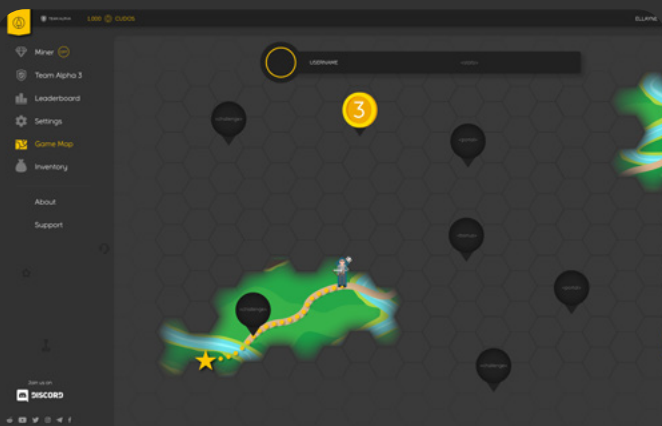

GeForce RTX 1080 Ti	\$19-22/month
GeForce RTX 2080 Ti	\$35-40/month
GeForce RTX 2070	\$23-26/month

### AMD

Indicative returns  
for the top gaming  
GPUs

Radeon RX 570	\$11-15/month
Radeon RX 580	\$11-15/month
Radeon VII	\$30-40/month

## POWERFUL CLOUD COMPUTING SOFTWARE

MONEYWEEK Forbes

## WHY USE CUDO GAMER IN A GAMING CAFÉ?

Cudo Gamer will make you money when your computers are not being used and lying idle.

### Manage Everything from a Single Web Console

Cudo Gamer enables businesses with an unlimited amount of PCs across from an unlimited amount of locations to manage from one central location.

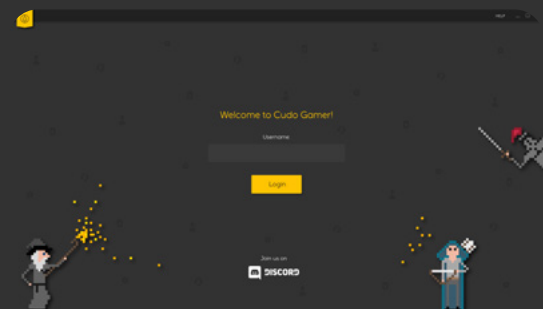

Start, stop, reboot, benchmark and monitor every device from the Web Console. Choose your preferred currency plus withdraw to a wallet of your choice.

### Build Custom Templates for Your Devices

Cudo Gamer's 'Configurations' allow you to build custom templates to allow you to choose how your miner will perform on startup and beyond.

Whether you're looking to run the miner in 'Invisible' mode on each of your PCs, to give you complete control of the settings, or simply want the miner to pause whilst the PC is in use, Cudo Gamer can be easily tailored to suit you.

It's a multi-algorithm, feature-rich GPU miner, but most importantly it won't affect the user experience of your gamers. **Try it** and see!

### Earnings and System Analytics

Cudo Gamer's Web Console provides you with a range of analytics to help you understand your mining performance.

You can forecast your earnings, view historic earnings and transactions, track the number and earnings from referring other cafes and most importantly... monitor the status, health and hashrates for all of your devices.

### Zero Impact to Game Play

We understand the importance of user experience. No one wants a laggy experience when playing their favourite game, in fact it's probably why they're in your cafe to start with.

Cudo Gamer sits dormant in the background on the computer and will intelligently start mining when the system is idle. You can even go beyond this and schedule the times of the day (or night) to mine away for you.
